Primary object of the honor society, as stated in the constitution adopted by the committee, is to "encourage eminent achievement in performance, original composition and music leadership under Catholic auspices."

Colleges represented at the organization meeting will form the charter groups of Delta Mu Theta. Other chapters of the society will be established in Catholic colleges, universities and music schools which grant a degree in music. Individual membership will be limited to students of senior rank who satisfy the scholastic requirements and who have been selected as outstanding members of the music department. Only 10 per cent of the senior class can be elected each year to Delta Mu Theta.

Plans for the honor society will go into action immediately so that members of the June graduating classes will be eligible for membership.

When, in the course of one semester's work, it becomes necessary for a girl to dissolve (for a time) the social bonds which have connected her with others and to assume, amid a roomful of books, the silent and solitary station to which neglected term papers and approaching tests impel her, a decent respect to the opinion of her friends requires that she should declare the causes which sentence her to this se clusion. Her statement follows:

DOROTHY THOMPSON'S EDITORIAL

'Our Fear-Ridden Middle Classes" is an extremely interesting editorial about the insecurity of our middle class—professional men such as graduate engineers, newspaper editors and others we used to consider as men with security.

These men lack the protection the laboring class have gained through unions such as work contracts, seniority rights, and re-

tirement benefits. Miss Thompson points out that in all Northern European bill offered by the Department of the Interior (see Section E above) will be countries "white collar" employees are assured of severance pay unable to count their rewards with any and pensions. Such inconsiderate and arbitrary conduct as exists in America does not exist there.

The answer Miss Thompson gives is not trade-unions for professionals becaues the work of this class is characterized by individuality, but rather she suggests that these men be allowed to set aside part of their income in government bonds which would not be taxed if drawn upon. Moreover she advocates an entirely new mental attitude toward the salaried middle class which will free them from being "yes men."

THE LATEST FASHION

Father Andre Litellier, a village priest in Milly, France, is probably the only priest in France or anywhere who has a Christian Dior label in his cassock. When Father Litellier's only cassock burned in a fire that also damaged his church he didn't have the \$45 for a new one and tacked up a notice to that effect. Dior who frequently attends services in Milly invited the priest to come for a fitting and made Father Litellier the most fashionable cassock in France.

This tale is related in the January 9 issue of Newsweek and on the same page (60) is a picture of the Little Flower Church in Richmond Heights, Mo., which has a circular Sanctuary. Seats are arranged in a circle around the altar so that 900 worshippers are within 45 feet of it. Even churches are getting the "new look."

"WHO'S A DUMMY?"

January is the traditional month for resolutions and self-criticism. Some girls take a long look in the mirror and wonder what they can do to improve their appearance. Seventeen thinks this is fine, but says that too many girls are dissatisfied with themselves just because they feel they don't have the average features or measurements of mannequins. The article wisely points out that even though we are living in an age of mass-production there are no "measurements, or patterns, no blue prints for a 1950 model that we have to conform to."

The article has some sound advice on being yourself and liking it. If you've made any New Year's resolutions for improving your appearance, don't fail to read the article on page 51 of the January Seventeen.

Family Traits Are Studied In Senior Sociology Project

People are more interesting than textbooks, senior sociology majors agree as they conclude a six-weeks' project in which they studied the traits and composition of three generations of families. Purpose of the survey was to ascertain and compare the various trends and outstanding characteristics

of each generation. Taking the families of the seniors for the subjects to be studied, the seven sociologists used the schedule and lived in the rural areas. interview methods to obtain the necessary facts for their survey. why more cross words don't arise from crossword puzzles, says Ginny Wiltgen, with a furtive look at her long-suffering roommate, Jeanie Redington. It means that when Ginny gets all entangled in her latest craze, crossword puzzles, she invites all the English majors to her room, and, English majors being as they are, utter chaos results until finally someone comes up with the right word. (The embarrassing thing about it is that it's always supplied by some modest little science major who got swept in by the general stampede). Jeanie has thus far borne the tumult patiently, but it is rumored that one night she managed to sputter, "This is the most five-letter-word-meaning-"devoid-of-sanity"thing I ever heard of!'

Sheila was describing, in Spanish, a new coat and mentioned that it had a stole which could be put around your shoulders-or rather, that was what she was trying to say. Actually she informed the class that the stole was designed to be put around your men! Of course, there's a moral to that bit of information, though. After all, any girl who "stole" a man deserves to get a cold shoulder.

Pick Outstanding Woman

Since TIME magazine has been making such a fuss over naming the man of the half-century (they chose Winston Churchill) THE COUR-IER has decided to name the "woman of the half-century."

We would like student and faculty cooperation in this undertaking in the way of suggestions. All you need do is write your nominee's name and your reason for thinking she is the "woman of the half-century" on a slip of paper and drop it in a box which will be in the Courier office.
